Individual Reflection Week7

Emma Stålberg 220513

What do I want to learn or understand better?
For the last sprint, I want to learn more about how to implement push notifications. To achieve this, I am going to do some research about the topic online and also discuss it with my team members.

How can I help someone else, or the entire team, to learn something new?
I try to share my knowledge and I try to answer questions when I am able to. I also try to be available for questions via slack or zoom.

What is my contribution towards the team's use of Scrum?
I try to continuously research about how to work with scrum and how we can work even better. This week, I was the scrum master again. Hence, I have been responsible for setting up the meetings, chairing the meetings and so on.

What is my contribution towards the team's deliveries?
I have completed my assigned user stories. I have been responsible for writing the meeting protocols and to hand in the team reflection. I have also tried to help my team members when I could, and I have participated in all of the meetings.
