EMELIE EDBERG

Individual Reflection
Week 2

What do I want to learn or understand better?
Learn more things in android studio and how to use best practices. Learn how our external actors software work and how we can make use of it.

How can I help someone else, or the entire team, to learn something new?
Nothing specific this week. Same as last week.

What is my contribution towards the team's use of Scrum?
I have tested different scrum board softwares and found that Jira Software offers what we need. I familiarised myself with Jira, created templates for user stories and tested Jira's git integration.

What is my contribution towards the team's deliveries?
Participated in a meeting for deciding project where our external actor also attended. Making the project scope with the group.
