EMELIE EDBERG

Individual Reflection
Week 6

What do I want to learn or understand better?
To manage my time better or rather not work so much. I have I hard time leaving unfinished work so I often work extra hours to get everything done.

How can I help someone else, or the entire team, to learn something new?
This week I have helped team members with tasks because I had done something similar before. I will continue to share and help when I can.

What is my contribution towards the team's use of Scrum?
This week I was product owner and therefor attended our demo meeting with our external client. There we showed the deliveries of the sprint, got feedback and discussed what we should focus on in the next sprint. As usual I also did the following:
• Sprint planning meeting
• Sprint review
• Sprint Retrospective
• Worked on user stories during the sprint

What is my contribution towards the team's deliveries?
Worked on our app. Implemented design, progress bar logic, design and logic for several question types and other things.
